## PROJECT

**online services management system**

This project we are going to develop website which will help customers to find out solution for any problems related to Electronic service. Our website will provide a platform for Electronic service at home.

**Covid patient management system**

This project we are going to develop website which will help patients to find out solution for any problems related to doctor appointment. Our website will provide a platform for Doctor appointment booked online.

**Online IT skills development portal**

We are making this system for the students who are coming from IT background and learn the additional skills apart from their academics It will give the benefits like course certificate.
