

Avantika Soni

Front End developer

As a front-end developer with 1.9 year of experience, I have demonstrated ability to design and implement visually appealing and user-friendly web interfaces. My expertise lies in translating web designs into responsive and interactive web pages using HTML, CSS, and JavaScript. Throughout my career, I have focused on optimizing web performance. During my tenure as a front-end developer, I have honed my skills in front-end frameworks such as Angular. I am eager to contribute my skills and drive to a dynamic and innovative team, where I can continue to grow as a front-end developer and positively impact the success of exciting web projects.

WORK EXPERIENCE

Cognizant Program Analyst

08/2023 - Present

During full time employment worked

Tasks

- During my full-time employment, I had the opportunity to work on multiple Angular-based projects, further expanding my expertise in front-end development and Angular application development.
- I was involved in the Biopharma project, focused on hospital and patient data management. My role included designing various user interface views and implementing features such as carousels and lists using web technologies.
- I contributed to the development of a Movie Ticket Booking App project, which aimed at efficient movie booking management. Within this project, I was responsible for designing and implementing the registration and login interfaces for users. Additionally, users could browse available movies, view seating options, and book tickets through the application.

Cognizant Program analyst trainee

01/2022 - 08/2023

Achievements/Tasks

- During my internship at Cognizant, I gained valuable experience in Angular, where I successfully contributed to a front-end project. My responsibilities included implementing data flow within the Angular application.

EDUCATION

Electronics and communication Engineering Poornima college
