As a results-driven and innovative UI Design and Development Lead with 9+ years of experience, I have successfully designed and developed websites and mobile applications across diverse industries, including travel and hotel booking, job portals, and pharma-related applications, Employee Application Software. My expertise lies in crafting responsive websites that deliver seamless user experiences across various devices and platforms.

Good Team Player with strong communication and interpersonal skills. I take charge of the entire process from requirement analysis, layout design, and conversion. Translating design and Wireframes into high quality code. Experience in handling project management activities including requirement gathering, Finalization of technical / function specifications and quality management of the product / software Application. Strong Interactions with managers of Various Project and provide guidance to the team for a high quality delivery. Solving the browser compatibility issues.

❖ WORK HISTORY

➤ **CIMPRESS INDIA (VISTAPRINT) – BENGALURU** (2017/continue) **SR. FRONTEND DESIGNER / FRONTEND DEVELOPER**

"At present, I am actively engaged in the process of conceptualizing, designing, and developing an internal application software solution for WFMNX and eWFM. This multifaceted project encompasses the creation of sophisticated Time-Off management, employee schedule, and leave management software, all powered by the versatile React JS framework. To ensure a polished and user-friendly interface, I'm implementing CSS frameworks like Material UI and Prime React CSS to not only enhance its user interface but also ensure that it is responsive and optimized for various devices and screen sizes."

➤ **ENSIGHT BUSINESS SOLUTIONS PVT. LTD – AHMEDABAD** (2015/2017) **WEBSITE DEVELOPER / HTML DEVELOPER**

"During my tenure at the company, one of my primary responsibilities was to transform client-provided website graphics in Photoshop PSD format into fully functional and visually consistent WEBSITE that seamlessly render in web browsers. To achieve this, I leveraged my skills in web development, utilizing HTML5, CSS3, BOOTSTRAP to meticulously design and create responsive websites. I ensured that the final product not only met the client's specifications but also adhered to high standards of browser compatibility, all while delivering clean, professional, and efficiently coded solutions."

ACHIEVEMENT AWARD FOR BEST PROJECT OF THE YEAR:

- Highway Landing Page - <http://www.emailmonks.com/landing-page-best-practices/infographic.html>

➤ **MILESTONE INTERNET MARKETING PVT LTD – AHMEDABAD (2015)** **WEB HTML DEVELOPER**

"In my role at the company, my primary responsibilities revolved around the management of existing CMS frameworks. I was tasked with populating these frameworks with content, making necessary adjustments to colors and font styles to ensure visual harmony, and conducting thorough checks to verify the correctness and appropriateness of the content and design choices.

➤ **PROVAB TECHNOSOFT PVT LTD – BENGALURU (2013/14)** **WEB DESIGNER**

"Working at my first company was an incredibly meaningful experience, and I am immensely grateful for the opportunity it provided me. In that role, I had the responsibility of creating visually captivating website designs using Photoshop, and then translating those designs into fully functional websites through the use of HTML and CSS. During my tenure at the company, I embarked on a journey of continuous learning, pushing myself to acquire new skills and knowledge. I devoted significant effort and determination to expand my skill set, making significant strides in my professional development."
