WORK EXPERIENCE (1.5 YEARS)

Front End Developer

HangingPanda PVT LTD.

03/2022 - Present

Noida

Hanging Panda is a team of radical minds with new and innovative ideas and develop software solutions that are built to perform.

PROJECTS

Todo App (04/2022 - 04/2022)

- In this I created a static list with checkboxes ,as per the work done or not you can check or uncheck this.

Company website

- Used React js,HTML,CSS and some CSS frameworks in it,
- Created forms in it and did validation in it.
- Created some static pages which shows about company.

Food vendor Admin panel

- It was a dynamic website and did API integration in it, there were some pages of Products,Addons,Categories ,in all these pages we used Api also there is Vendors information

Orient company

- In this website I worked on its design part and did some form validations using React js.
- Also created some static pages in it and used tailwind css for its design.

Extech website

- This was a static website,in this I created a UI of this using react js,html ,css,javascript and added some modals and carousels using static data only.
- also created components for modals and carousels.

Tamkin

- In this website I Used tailwind css and used some functionalities in it ,also added the content of the website

Cleaning website

- In this website ,for its design styled components are used ,and it was a static pages website ,only forms validation are there
