(MECHANICAL)

VADODARA INSTITUTE OF
ENGINEERING (GTU AFFILIATED)

ACHIEVEMENTS

- LEADER OF THE WINING TEAM AT
SMART INDIA HACKATHON 2022

LANGUAGE

- Gujarati
- Hindi
- English

INTERNSHIPS

• INDUSTRIAL EXPOSURE

7June2021-

21June2021

Millennium Techno solutions

Engaged in professional industrial training with responsibilities encompassing oversight of assembly, design, and analysis as the technical lead and marketing techniques.

• PROJECT TRAINEE AT DESIGN DEPARTMENT

3February2022-

31March2022

L&T VHEW (Vadodara Heavy Engineering Works)

I delved into the utilization of design software and advanced tools, such as parametric software within Siemens-NX. Additionally, I acquired proficiency in the foundational design of heat exchanger components in accordance with the ASME Section VIII, Division-2 standards.

• PROJECT TRAINEE AT DESIGN DEPARTMENT

1April2022-

4May2022

Ultra Pack

I acquired expertise in the design procedures for custom-made, non-standard special purpose machines, where I assumed full project accountability encompassing design, manufacturing, quality control, and servicing. Additionally, I conducted site visits to two prominent Parle-G biscuit manufacturing facilities, located in Kanpur, Uttar Pradesh, India, and Bhopal, Madhya Pradesh, India.

EXPERIENCE

• PROJECT ENGINEER

9May2022-

31August2023

Smart Pack

As a Project Engineer, I held a multifaceted role where I assumed responsibility for various critical facets of the company's operations. This encompassed overseeing the entire project lifecycle, from design and procurement to manufacturing supervision, on-site visits, customer interaction, and service supervision. My role required a dynamic skill set, blending technical expertise with strong project management and customer relationship skills, ensuring the successful execution of projects and client satisfaction.
