2023

B.E. - MECHANICAL ENGINEERING
GOVERNMENT ENGINEERING COLLEGE, GODHARA
CGPA-7.73

EXPERIENCE

-

Internship
JAS Associates
I have learned about "INDUSTRIAL PETROLEUM DEPARTMENT & INDUSTRIAL FIRE DEPARTMENT" throughout my internship. Some of the items I discovered in the Petroleum Department were the requirements for obtaining an approval for the storage of petrol and oil in cylinders, a certificate for pressure vessels, safety valves and installations. Under the Fire Department, there are things like designing a fire hydrant system, rules for obtaining a fire NOC, and ADQC audits of fire systems.

-

Internship
Redlion Industries. Pvt Ltd
Completed my internship in this company, a Software-Based Company. Over here I learned about the various applications and utilities of the software tools such as like Autocad, Solidworks, and Creo which has a major role in in developing machinery parts and other auxiliary parts. This is beneficial me in understanding how to design various industrial pieces.

SKILLS

Effective communication.

Microsoft office 360 basic operation (Word, PowerPoint, Excel)

Adaptability
