SUMMARY

I have always been intrigued by technology. Gaming being my first love, I always wondered how computers could do anything without "breaking a sweat." This love for technology led me to take Information Technology for my graduation. This has helped me learn a lot about how technology works and how to work with tech itself. My ultimate goal is to one day combine the knowledge I have gained and apply them in my field of work and achieve success.

EXPERIENCE

Web Developer Intern

Destek Infosolutions 📅 06/2023 - 09/2023 📍 Pune

🔗 https://drive.google.com/file/d/1q5LYoo4dbxKlyL_AptOZWREoTELMe-pk/view
