## OBJECTIVE

I thrive in collaborative team environments, where synergy fuels our collective success. Equally adept at working independently, I bring a proactive and efficient approach to my work. Driven by a genuine passion for learning, I actively seek out new technologies and methodologies to stay at the forefront of my field. I am driven by the desire to embark on a challenging career and contribute to a forward-thinking organization that not only values personal growth but also harnesses my skills to drive its own advancement.

## SKILLS

- Digital Marketing
- Social Media Management
- Influencer Marketing
- FB Ads
- Autocad 2D
- MS Office
- WordPress Web Designing

## PROJECTS

### DESIGN AND FABRICATION OF SOLAR DRYER

This project involves the design and fabrication of a solar dryer system for efficient drying of agricultural products, food items, and other materials. By harnessing renewable energy from the sun, the solar dryer will provide a sustainable and cost-effective alternative to traditional drying methods. The key objectives include maximizing solar energy utilization, creating a versatile drying chamber, implementing temperature and humidity control mechanisms, ensuring user safety, and conducting performance testing. The solar dryer will feature solar panels or collectors, an adjustable drying chamber, airflow facilitation, and sensors for temperature and humidity regulation. Ultimately, this project aims to deliver an innovative and eco-friendly solution for effective drying processes.

## EDUCATION

### SSC

Kendriya Vidyalaya Khandwa  
2012

### HSC

Kendriya Vidyalaya Khandwa  
2014

### BE MECHANICAL

Indore Institute Of Science And  
Technology  
2019

## INDUSTRIAL EXPOSURE

Completed Vocational Training Of One Month At  
Metalman Auto Pvt. LTD. Pithampur
