Professional Summery

    Web developer with around 2 years of experience, specializing in front-end technologies. I've successfully contributed to a range of projects, focusing on delivering high-quality, user-centric websites. I'm committed to continuous learning and thrive in collaborative team environments, where I can apply and expand my skills in web development. Have hands-on experience in React and Node JS projects.
Work Experience

Web Developer

Eviden || Atos Group

12/2021 – Current
