PERSONAL PROJECTS

Startup Club(Full Stack Web development)- An Advertising platform for freshers
- You think, build...we advertise! Some of us are just born to be the owner. this platform is especially for them.
- Designed and Developed a social website where users can log in as guest user. Real time website for multiple users to do end-to- end encrypted chat.
- Users can see all the Articles on the latest Technologies, and own post articles. Share project ideas.

Cashless vending system
- Made a project which focuses on cashless service like UPI or virtual wallet to be used for payment for vending machine service.

Ecommerce Web Application
- With the assistance of Ui/ux design, I developed three significant application projects and an e-commerce website with Shopify.
